**For your benefit and safety, please read this manual before you use the NordicTrack® Smart Mattress.**

## Important Precautions

**⚠ WARNING:** To reduce the risk of serious injury, read the following precautions before you use the mattress. ICON assumes no responsibility for personal injury or property damage sustained by or through the use of the mattress.

1. **It is the responsibility of the owner to ensure that all users of the mattress are adequately informed of all precautions.**
2. **The mattress is intended for indoor use only. Do not expose the mattress to direct sunlight for extended periods of time.**
3. **Keep the mattress away from flames and sparks. Do not smoke in bed.**
4. **Do not bend, stand on, or jump on the mattress.**
5. **Use the mattress only as described in this manual.**

## Setting Up and Using the Mattress

When you remove the mattress from the shipping plastic, you may notice a “new foam” smell resulting from the manufacturing process. This smell is normal and harmless. It is recommended that you air out the mattress for a minimum of 24 hours before putting sheets on it.

Place the mattress right-side up on a firm, flat support system: a floor, a frame with closely-spaced slats, or a frame with a box spring. If the queen or king mattress is placed on a frame with slats or a box spring, the frame must have a rigid center bar and a minimum of five legs (one leg on each corner of the frame and one leg on the rigid center bar).

During the first few nights that you use the mattress, you will notice that it feels very different from an ordinary mattress. Give your body a couple of weeks, if necessary, to adjust to the healthful support and cradling comfort of the mattress.

## Mattress Care

To prevent premature wear of the mattress, do not use electric blankets or heating pads on the mattress.

To minimize stains, cover the mattress with a mattress protector. Spot clean the mattress cover, if necessary, by dabbing it with a clean cloth dampened with a small amount of water and mild detergent; **do not use cleaning fluids**. Let the mattress dry completely before putting sheets back on.

Note that there is a zipper around the base of the mattress. The zipper was used in the manufacturing process; **do not unzip and remove the mattress cover—doing so will void the warranty**.

When moving or storing the mattress, avoid bending it. Cover the mattress and place it in a protective carton, if possible. Do not place objects on the mattress.
